

Gap Shield 2019

Guarding Yourself Against Medical Gaps and Shortfalls

Being a member of a medical scheme does not guarantee you full cover as you would expect, especially when you are hospitalised. Many medical practitioners charge considerably more than the Medical Scheme Tariff (MST). This creates a shortfall or gap between the MST and the actual cost incurred for medical expenses when you are treated **in hospital and certain procedures in a day clinic**. As a member you would be personally liable for the difference in cost, which for specialists, surgeons and other medical practitioners can add up to a sizeable amount.

Gap Shield gap cover offers you specially designed product that provides supplementary cover to assist with shortfalls, in the event of hospitalisation involving surgery or medical treatment.

You may only apply for Gap Shield gap cover if you are an active member of Momentum TYB administered medical schemes.

Medical Expense Shortfall Benefit is limited to R157 000 per person per year

Medical expense shortfall benefit for in-hospital procedures

We cover you for the shortfall between what the specialist has charged you and what your medical scheme has paid, up to 2 times the amount paid by your medical scheme towards in-hospital shortfalls. If however, your procedure falls into one of the following types of treatment, we will increase your cover up to 2½ times the amount paid by your medical scheme:

Obstetrics and gynaecological surgery | Neurology | Cardiothoracic surgery

Medical expense shortfall benefit for out-of-hospital procedures

We also cover you for certain medical procedures performed out of hospital, in day clinics or other registered facilities. If however, your procedure falls into one of the following types of treatment, we will increase your cover up to 2½ times the amount paid by your medical scheme:

Obstetrics and gynaecological surgery | Neurology | Cardiothoracic surgery

Prescribed Minimum Benefit (PMB) procedures are covered under this benefit

Covered out-of-hospital procedures

Urology - Circumcision (due to medical necessity), cystoscopy, orchidopexy, prostate biopsy, vasectomy
