

Acute Formulary (BY DRUG CATEGORY) January 2026

Notes:

The Single Exit Price (SEP) is the maximum amount your medical scheme will pay for a medicine on your plan. The prices shown are based on information available as of 20 November 2025 and may change over time.

Members are encouraged to make use of the trade name example, so that member out-of-pocket expenses are avoided.

Quantity limitations are applied by drug category and dosage format. Quantity limitations do not apply to medication authorised as Chronic.

Chronic medication is authorised individually with each case reviewed on its own merit, in accordance with Scheme rules, managed healthcare principles and evidence based medicine. Not all chronic medication is listed on this formulary, but may be accessed via treatment algorithms on review of an application for authorisation.
